EXECUTIVE SUMMARY

Motivated MCA graduate with knowledge of Manual Testing, Automation Testing, Selenium WebDriver, Java, and SQL. Currently working as an SDE Intern with hands-on experience in monitoring a production vehicle detection system, identifying and reproducing defects, reporting issues to developers, and verifying fixes. Seeking an entry-level Software Test Engineer / QA Engineer role to apply my testing knowledge and develop my skills in automation testing.

EXPERIENCE

SDE Intern | Defect Scanner, a unit of Alphabt

July 2026 – Present | Hybrid

Projects Currently Working On: RBT Vehicle Lamp & Parts Detection System | AI Roll & Brake Project

- Monitor the RBT vehicle lamp and parts detection system at the client plant and validate system behavior against expected requirements.
- Identify software, dashboard, UI/UX, backend, and detection-related issues; reproduce confirmed defects and report them with screenshots and relevant details.
- Reproduce detection issues using the same vehicle model, variant, and color, and retest fixes to verify defect resolution.
- Annotate vehicle videos in CVAT using bounding boxes to support object-detection workflows and model validation.
- Supported verification and validation of the AI Roll & Brake project, including detection-result verification and functional checks.
- Assisted with YOLO-based model training and validation using notebook-based workflows, along with minor technical and project-support tasks.

Frontend Developer Intern | Unified Mentor

2025 | Remote

Project: Personal Portfolio Website | Links: [GitHub Repo](#) | [Live Demo](#)

- Developed a responsive personal portfolio website using HTML, CSS, and JavaScript, including interactive UI components and structured navigation.
- Tested UI functionality, navigation, responsiveness, and cross-browser behavior across different screen sizes and devices.
- Identified and fixed front-end issues to improve usability, consistency, and responsive behavior.

TECHNICAL & CORE SKILLS

Manual Testing: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, Cross-Browser Testing, Test Case Design, Defect Identification, Defect Reproduction, Defect Reporting, Retesting, Defect Life Cycle, SDLC, STLC, Agile Methodology.

Automation Testing: Selenium WebDriver, Selenium IDE, TestNG, Locators, XPath, Synchronization Techniques, Data-Driven Testing Basics.

Programming & Web Technologies: Java, SQL, HTML, CSS, JavaScript, Python Basics, Flask, REST API Basics, WebSocket, Polling Basics, DSA, C++.

Tools & Platforms: Jira, Postman, MySQL, Eclipse IDE, VS Code, GitHub, PyCharm, XAMPP, CVAT, MS Office.

AI Tools: ChatGPT, Google Gemini, GitHub Copilot, Claude AI, Blackbox AI, Lovable.

Soft Skills: Analytical Thinking, Attention to Detail, Problem Solving, Communication, Team Collaboration, Adaptability.

PROJECTS

Smart Traffic Accident Detection and Emergency Response System (STADAERS) 2026

- Improved UI/UX flow and validated critical modules of a complex deep-learning system from a real-user perspective.
- Performed functional validation of application modules and checked application workflows against expected behavior.
- Verified application responsiveness and cross-browser compatibility across different screen sizes and devices.

DBZ Accessories (E-Commerce Web Application) 2024

- Performed manual functional testing covering user navigation, item search, product listings, and UI controls.
- Identified and reported front-end issues through cross-browser and responsive testing across different screen sizes.

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026

Dr. MGR Educational and Research Institute, Chennai, India | CGPA: 8.07

Bachelor of Computer Applications (BCA) - Digital Technology 2021 – 2024

Dr. MGR Educational and Research Institute, Chennai, India | CGPA: 7.0

CERTIFICATIONS

- Software Testing and Selenium Automation Training – QSpiders, Chennai (2025 - 2026)
- Cloud Computing - Elite Certification – NPTEL - IIT Kharagpur (Online, 2025)
- Java Enterprise Apps - Digital Transformation Curriculum – NIIT, Anna Nagar, Chennai (2021-2024)

LANGUAGES

Tamil, English
